

Being a bartender is a crime...

People routinely exposed to second-hand smoke from tobacco industry products—people such as restaurant, bar, factory, trade, office, and pool hall workers—can see their risk of lung cancer triple.

The Ontario Occupational Health and Safety Act lists 15 substances that have no safe level of exposure—6 of which are found in tobacco smoke. The smoke from the burning, non-filtered end of each cigarette has higher levels of poisons than the smoke inhaled by the smoker.

Until all Napanee workplaces—including restaurants,

A 100 percent smoke-free spaces by-law won't be in Napanee in line with other Ontario municipalities such as Kingston, Ottawa, Cornwall, Belleville, and Waterloo.

Tell your Town Councillor that all Napanee residents deserve a by-law that protects them from workplace hazards.

 Everybody deserves...
